

Business Acceleration Program

12 weeks that will make your business rock solid!

Program Outline:

This program is a detailed blueprint for the essential building blocks of every successful business. It's designed for companies that have yet to break into 7-figures of annual revenue and are looking for mentorship to explode to that level and beyond and to do so profitably. Experienced entrepreneurs are also ideal for this program that are launching a new product or service and are willing to invest in doing it right.

We support you with live, weekly 1-hour calls, online learning modules and a detailed plan (including cash flow) designed specifically for your business and goals.

Outcomes we provide:

- **Customized, tailored strategies** and processes for your business to operate more efficiently, sell more, increase customer loyalty and satisfaction, build a productive team, and have a crystalized business plan built around a detailed cash flow.
- **A more balanced schedule** with time off to relax and be with loved ones.
- **The plan, with accountability.** Wake up every morning knowing exactly what to do and how to do it. We will push you to get the results you've always wanted and hold you accountable to getting vital tasks done each week.
- **The end of loneliness.** Running a business can be frustratingly lonely, but not with us. We are side by side with you every week, driving you toward incredible results.

What makes MYM different?

We know that business can be seriously emotional, especially around finances. We look at business holistically and know that our personal lives heavily impact our mindsets, and the business's results. We are mentors in business and yet fully understand mindset and 'childhood stuff', that unless worked on, will hold the business back.

We care for the business owners and their families and consider you part of our family when you join the program. We are all on a journey on this planet and how we look at things makes us unique in the world of coaching.

You are goal obsessed and committed to greater levels of success. You do the work and don't stop when things get hard!

Time to go to the next level?
