

GPS Marketing Strategy Session

The end of wasted money on marketing!

Program Outline:

Let's face it. Most businesses, us included, have been burnt by marketing agencies that promise incredible results, but deliver little except an invoice. We were tired of seeing our clients and good friends spinning their wheels, attempting to implement cookie cutter marketing templates that were completely wrong for their business. That's why we created this program.

Every business is different. Therefore, every marketing plan should be different and customized for the needs of that business. That's exactly what this session is, a strategic meeting that results in a customized, 12-month marketing plan and monthly check in calls to keep you on track. This way you eliminate marketing and advertising guess work, wasted money and frustration.

Outcomes we provide:

-A complete **12-month, step by step marketing plan custom designed** for your business and goals. Think of this like marketing paint by numbers just for what you need.

-**Peace of mind** knowing you don't have to figure this out on your own or waste money on trial-and-error marketing and ads.

-**Increased revenue and profitability.** We also provide a detailed cash flow/marketing analysis. This is an incredible forecasting tool that's easy to use and clearly shows you the results of money you spend on marketing.

-**Extreme clarity on your ideal target audience** and how to attract them. We show you an amazing process to get more AVATAR clients.

-**A front to back understanding** of how marketing flows and funnels operate and the tools to build your own going forward.

What makes MYM different?

We know that business can be seriously emotional, especially around finances. We look at business holistically and know that our personal lives heavily impact our mindsets, and the business's results. We are mentors in business and yet fully understand mindset and 'childhood stuff', that unless worked on, will hold the business back.

"I was doing a bunch of stuff that was so discombobulated. This got me super clear on my funnels, mediums, client journey, and cash flow. I have easily taken \$150,000 worth of business courses, if not more. And, I have never had this kind of clarity! I am excited, as I now have a month-by-month plan. Just do it!"
